## A WORD TO SMOKERS

We are striving to give our customers good cigars for their money. Of course, there are as many different tastes as there are people. As a consequence, we are forced to carry many different brands. Now we have chosen for the smoker who likes Domestic Cigars— "M. C. Special" and "Black and White." We have chosen for the Havanas smoker, "Norma Martinez," and it is an excellent piece of goods, just as good as the average 10c cigar. And last of all we have chosen "Gwin & Mays Reputation" for the blended goods. Gentlemen this is the line of cigars for you to try out. Let us hear from you. Buy a quarter's worth of either and if you are not satisfied we refund the money.

## MESSANGER KILLS TRAIN ROBBERS

WHEN TRAIN IS HELD UP BRAINS ONE AND SHOOT THE OTHER.

San Antonio, Tex., March 13.—After having knocked out the brains of one train robber with an ice mallet, David A. Trousdale, an express messenger, killed the robber's accomplice with the dead man's gun last night, and in this manner prevented the looting of the Southern Pacific express car and the holdup of all the passengers on the train.

The attempted holdup occurred between Dryden and Sanderson, in West Texas, shortly after midnight last night and the two dead robbers, both of whom were Americans, were taken to Sanderson in the express car they attempted to rob.

The robbers boarded the engine at Dryden and when about two miles out forced the engineer to stop the train.

They then uncoupled the baggage and express cars and hauled them nearly two miles. One of the robbers entered the express car and covered Express Messenger Trousdale with his revolver, while the other kept the engineer and fireman covered.

While Trousdale was turning the combination of the safe he caught the robber who had him covered off his guard and brained him with an ice mallet. The blow killed him almost instantly.

Picking up the dead man's revolver he awaited developments. The robber who had the engineer covered became uneasy over the long delay of his partner in returning and left the engine to go to the express car to investigate.

When the robber thrust his head through the door Trousdale fired, the bullet taking off the top of the robber's head and killing him instantly.

Trousdale is a San Antonio man and unmarried.

## YOUNG DEMOCRATS WILL MEET THIS EVENING

The Young Men's Democratic Club of Ada will hold its regular meeting at the court house this evening at 7:30. There is considerable enthusiasm among the members which will continue to grow as the campaign progresses and at this meeting a program will be given that will stir the fighting blood of the entire membership as well as draw new members.

One of the new members will give his views on how to "stomp" the political life and other bad qualities out of the republicans and socialists. Probably, however, the hit of the evening will be a quartette: They gotta Quit Kickin' My Dawg Around." This will be sung by the best musicians of the organization.

An old fashioned experience meeting will be held in which all talks will be limited to two minutes each. Democrats of all ages invited to attend this meeting.

"The Right Name but the Wrong Man." That is the subject of a fine drama that will be shown at the Majestic this evening. The hero is convicted of a crime of which he is innocent, and his trials are many and severe, but having the right stuff in his makeup, he finally triumphs and comes out of the great battle with colors flying. "The Reporter," is another feature that will give the audience some idea of the life of the busy gatherer of news in a big city.

## TAFT DOOMED TO DEFEAT

WASHINGTON CORRESPONDENT SEES NOTHING BUT DISASTER AHEAD FOR REPUBLICANS.

(By Winfield Jones.)

Washington, March 14.—President Taft is doomed to defeat if he is renominated. His weakness as a candidate is being shown every day. The standpat republicans, who are the mainstay of the Taft campaign, are unable to make any headway. Taft's weakness as a candidate is clearly shown by an analysis of the electoral vote.

In only twenty-three of the forty-eight states is the administration now in the hands of republicans. These states have 230 votes in the electoral college.

There will be 531 votes in the electoral college, making 266 necessary to elect. It is doubtful if the republicans can hold the states in which they now have the governorship.

In eight states republican governors are leading strong opposition to Taft.

The republican voters in these states are overwhelmingly in favor of the nomination of Mr. Roosevelt, and if the president is renominated at the Chicago convention the great probability is that the normal republican vote cannot be brought out at the polls in these states.

In seven other states which now have republican governors—California, Illinois, Iowa, Minnesota, New Mexico, Washington, Wisconsin—there is also decided opposition to President Taft, such that it is more than doubtful whether any kind of campaign that can be conducted in case the president should be renominated would be able to bring out the normal republican vote. These states have an aggregate of ninety electoral votes.

This puts 161 electoral votes from fifteen normally republican states, into the doubtful column the moment President Taft is declared the nominee of the Chicago convention.

In case the nominee at Chicago is Roosevelt, there is reason to suppose that he would fail to carry many of these twenty-three republican states. He certainly would not carry Maryland and Tennessee.

The Roosevelt fight, therefore, would have to be made in states which now have democratic administrations. There are twelve of these states. Colorado, with 6 electoral votes; Connecticut, 7; Idaho, 4; Indiana, 15; Maine, 6; Massachusetts, 18; Montana, 4; New Jersey, 14; New York, 45; North Dakota, 5; Ohio, 24; and Oregon, 5. Total 153. Mr. Taft lost Colorado and Nebraska in 1908.

On any figuring which can be made in regard to these twelve states now administered by democratic governors Taft could not win the votes necessary in addition to the 230 from states at present republican to carry him to victory. If Mr. Taft is renominated, he will start with an aggregate of electoral votes considerably under 100, and it will be necessary for him to win about 175 electoral votes from states that will properly be classed in the doubtful or possibly the democratic column.

This is practically certain. The president will be disastrously defeated if he is renominated.

Any democratic nominee can beat Taft. "Uncle Jud" Harmon or Underwood could do it hands down. The best thing for the republicans to do is to nominate Roosevelt, but even then they are not going to stand any chance of winning at the November polls.

The truth is that the country as a whole is tired of years of republican misrule and extravagance, and wants a change. The country don't want any do-nothing traveler or any wild-eyed broncho buster in the White House in 1913. Neither does it want anybody tinged with socialistic doctrines. It wants a "safe and sane" man who can do things for the people and who has done things for the people.

Every sign now points to democratic victory next November. The republicans are fighting like Kilkenney cats and the two factions are so

bitter against each other that which ever side wins in the Chicago convention the losers will take the great delight in throwing down the victor at the polls. ## ADVISES WOMEN TO HOLD THEIR TONGUES

New York, March 13.—"Where were you last night?" and "Aren't you ashamed of yourself?" the most popular phrases in a married woman's repertoire, will go into the discard if the suffragists adopt the suggestion of the Countess of Warwick that they refrain from speaking to men for a whole year in order to hasten the day of equal suffrage. No suggestion made since women started their campaign for the ballot has attracted so much attention. One heard it discussed on all sides today. Most men were for the idea on the first ballot, but the women refused to commit themselves until they had figured out just how it would affect them. "Going to give us the 'Silence,' eh?" laughed a married man whose meek appearance indicated that he was only a private in his own home. "That is the most sensible move they have made yet toward bringing about universal peace, but it's too good to be true."

## PRESIDENT OF STATE UNIVERSITY ELECTED

Oklahoma City, Mar. 14.—A special dispatch from Boston, Mass., Wednesday night, contained the information that Dr. Stratton D. Brooks, superintendent of the public schools of Boston, has been elected to the presidency of the Oklahoma State university at Norman, and has accepted the position.

The telegram further stated that Dr. Brooks is now on his way to Oklahoma City for a conference with the state board of education, and to assume charge of the institution.

Dr. Brooks is one of the foremost educators of America. Two years ago he was president of the National Educational association. He is about 45 years old, and has a family.

Efforts to get in communication with members of the state board of education last night were futile, but The Oklahoman's Boston correspondent states that the information comes from no other authority than Dr. Brooks himself.

The university has been without a head since last July when Dr. A. Grant Evans retired from the presidency. Dean Monnett has been acting president since that time.

President Taft is said to be making every effort to maintain neutrality in the present Mexican disturbance, but the chances are that if many more of those roving bands cross the Rio Grande to depredate on Texas soil neither the laws nor the Rio Grande will be enough to keep a bunch of exasperated Texans from going over and cleaning up on some of the marauders, no matter which uniform they wear. A company of Texas cowboys will do much more effective work than a whole regiment of regulars if once they get started, and it does not take much to start them either.

## A Quilt With a History.

Macon, Ga., March 14.—A comfort with Confederate history in its folds will be one of the curiosities which will attract the attention of the visitors to the Confederate reunion to be held at Macon in May. Mrs. D. H. Perry, a former Maconian is the owner of this quilt, having inherited it from her grand-mother, Mrs. Georgia Palethorpe who was in charge of the hundred girls working at the Confederate cannon works during the war.

During the war when the old shells

and cartridges were brought back to the arsenal at Macon a bag of powder was attached and they were sent to the Confederate laboratory in Macon where a new cast was made of them. Instead of new shells, the last part of the Civil War was fought by the Confederate forces with old shells made over.

It is out of the bags that contained those charges of powder that this old quilt was made. Mrs. Perry is coming to the reunion at her former home in May and will bring this historic heirloom with her.

## CHARGED WITH SERIOUS OFFENCE

This afternoon the preliminary hearing of W. W. Warren, charged with attempting to commit an assault on his 11-year-old sister-in-law, resulted in his being held on a bond for \$500.

According to the testimony of the child and her sister, Warren's wife, he made two attempts, the last of which was in November, and by threatening to kill them prevented the case from being made public until a few days ago, when they left their home near Franks and walked to Roff where they reported the case to the officers. Warren was arrested and lodged in jail by Deputy Sheriff Whitaker of Franks, and was held there pending the examining trial held today.

### Not at All Strange.

A Toledo girl, who goes into trances, can sing and whistle simultaneously while she is in such a condition. Probably she was an office boy in some precious incarnation.

### The Man on the Box.

If you are looking for refreshing novelty in fiction, a delightfully irresponsible sequence of Harlequin adventures that have stepped straight out an old-time pantomime into the practical everyday setting of American life, then you will find what you want in "The Man on the Box." Read the book and see the play at City Hall Opera House Tuesday, March 19th.

"The Man on the Box" tells a beautiful story of a young man who changes with a coachman so that he may be near the girl he loves.

Heat is what you want when you buy Coal—not ashes and clinkers. The Coal you buy from us is handled by us simply because we have made a thorough investigation of the fuel question and know that the DEWAR Soft Lump Coal actually carries more heat units than coal from any other mines.

Remember if you get 1500 lbs. of lump coal and 500 lbs. of slack for a ton you have really only 1500 lbs. of coal as the slack is worthless to you. We would not let you have slack if you wanted it as we need it for our boilers, so be sure and get our prices before you buy.

## ARRESTED ON FORGERY CHARGE

This afternoon Chief Hounshell arrested on Charley Carter wanted at Batesville, Ark., on charge of forgery. The chief received a telegram from the sheriff of that county stating that Carter was wanted there, and that his father had received a letter signed J. W. Evans stating that he had found the young man dead and had seen to his burial, but not believing the report, asked the chief to arrest Carter in case he found him. As the chief happened to know where he was, he soon had his man behind the bars to await the coming of the Arkansas officials.

### Listen Friends.

I don't want you to read this unless you have confidence in my word. For two years I suffered from a sore on my shin caused by an ax cut. I tried a great many remedies with no results. At last I went to Gwin & Mays, they sold me a box of "Gwin & Mays' Shin Salve," and the second 25c box cured that sore absolutely. I trust that my experience may help other sufferers.

Yours very truly, LEWIS KEETHLEY.

The DeSota theatre is preparing for another large crowd this evening. "A Terrible Lesson," is the title of a strong drama that will form a splendid feature, and "So Speaks the Heart," is another. The moving pictures are staged by experts like Carr, Blanche Cornwall and others, who are becoming as well known as Viola Allen or Nat Goodwin, for in a moving picture the artist must indicate by action and expression what the actor on the real stage presents in words.

# S.S.S. FOR RHEUMATISM

Rheumatism is caused by an excess of uric acid in the blood, which gradually gets into the circulation because of indigestion, constipation, weak kidney action, and other irregularities of the system which are sometimes considered of no importance. This uric acid causes an inflamed and irritated condition of the blood, and the circulation instead of nourishing the different portions of the body, continually deposits into the nerves, muscles, tissues and joints, the irritating, pain-producing acid with which it is filled. Rheumatism can only be cured by a thorough cleansing of the blood, and this is just what S. S. S. does. It goes down into the circulation, and by neutralizing the uric acid and driving it from the blood, effectually and surely removes the cause. S. S. S. strengthens and invigorates the blood so that instead of a weak, sour stream, causing pain and agony throughout the system, it becomes an invigorating, nourishing fluid, furnishing health and vigor to every part of the body and relieving the suffering caused by this disease. S. S. S. being a purely vegetable blood purifier, is the surest and safest cure for Rheumatism in any of its forms. Book on Rheumatism and any medical advice desired sent free to all who write.

## Supper at the Travelers.

About 3 o'clock yesterday afternoon T. W. Kennedy, proprietor of the Travelers' dropped into the News office and extended a cordial

invitation to the reporter to come down and eat supper with him, promising the best fish he had put into his mouth in many a day, with the added attraction of music by his orchestra, which he had corralled the day previous. As a matter of fact the reporter had strict orders from his sister to be at home early to help do some gardening, and at first he thought best to decline the invitation but somehow all the rest of the afternoon that fish clung to his thinking apparatus, and every little while it would crop out in the copy which the reporter was hammering off on the typewriter. As the hour of the feast approached he imagined that the delicious odor of that cooking fish was traveling the whole distance to the News office, and somehow the idea that there was any immediate haste for the garden work gradually faded away, and about 6:30 the hungry guy put in an appearance at the Travelers. Was the supper good? Well, one would have to have been present to judge for himself about that. Everything about the Travelers was first class and the well cooked supper was enough to make a fellow quit a much more agreeable job than gardening or grinding out copy to enjoy.

## WHY not give your lad the same training?

"When I was a growing lad, and came upon many words in my reading that I did not understand, my mother, instead of giving me the definition when I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question—among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village school, my chief diversion, after lessons were learned and before they were recited, was in turning over the pages of the 'Unabridged' of those days. Now the most modern Unabridged—the NEW INTERNATIONAL—gives me a pleasure of the same sort. So far as my knowledge extends, it is at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid dictionaries in several volumes will yet find it a great convenience to have this, which is so compact, so full, and so trustworthy as to leave, in most cases, little to be desired."—Albert S. Cook, Ph.D., LL.D., Professor of the English Language and Literature, Yale Univ. April 25, 1911.

A deputy sheriff had a "hunch" raided the car and captured all the beer and whiskey. The car and the delegates reached Tulsa in a "dry" condition.

## PROFIT BY OTHERS' EXPERIENCE

### Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it. MISS E. A. ROSS, Sharon, Mercer Co., Pa.

### Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good, and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps on coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement. STEPHEN BACON, Rochester, N. Y.
